Reject all bids in reference to ITB 2010-18 (CIP DR0903) Additional Conveyance to Jane Long Lake.			

EXECUTIVE SUMMARY

In August 2010, Klotz Associates completed design services for the CIP Project titled Additional Conveyance to Jane Long Lake (DR0903). This design included the installation of a 36" storm sewer from the US 59/Sugar Creek Boulevard intersection through the private parking lot outfalling into Jane Long Lake. In addition, this project will include the installation of a trash grate at the existing Jane Long Lake outfall as well as cleaning of the box culverts under the Sugar Creek bridge.

On September 1, 2010, the City released an invitation to bid (ITB) for construction services for CIP project DR0903, Additional Conveyance to Jane Long Lake. Below is a list of the following events:

- Non-mandatory pre-bid meeting was held on September 16, 2010.
- Addendum #1 was issued on September 17, 2010.
- Bids were opened on September 23, 2010 at 11:00 am.

There were two bids submitted on time. The low bidder Triple B Services, L.L.P., did not acknowledge the addendum in the response. Therefore the only responsible and responsive bidder was Jerdon Enterprise, L.P. in the amount of \$728,815.00 with an alternate of \$18,000 for a total amount of \$746,815.00.

Due to the limited number of bids, the Engineering Department recommends that the City Council reject all proposals responding to Invitation To Bid 2010-18 and authorize the release of a new Invitation To Bid.
